Slain cat 'overslept' its dead mother 7 Share Media release: The cat is resting up and regrouping A cat recovering at a city animal hospital after shooting a private veterinarian accidentally on Wednesday has been named by authorities as the cat's mother, who was killed by the same bullet as her progeny. The cat is resting up and regrouping after a close range, head-on collision between the mother and son. (Credit: Newshub) "The cat is resting up and regrouping, still alert and working through the trauma," a RSPCA rescue officer said. Sarina City Council provided the victim's family with support for the family to come and retrieve their pet on Monday. "They were able to put the cat on the back of their ute and drive back home with it. It was an emotional reunion for them." Sarina Mayor Andrew Stewart said the tragedy was due to an oversight and not deliberate. A bow and arrow. The kitten was shot through the archery hood. (Credit: Newshub) "Clearly, however, an error in judgement by the owner led to the cat being shot through the hood of the young person's gear, something even she or he was not aware of," he said. "We are all naturally sad for the family, but the greater tragedy in my mind lies in the reminder of the mistakes we can all make. "The worst possible outcome - both for the animal and for the property - would have been for this to have happened, but then at the very least the person affected would have been fully cognisant of the nature of their actions, and the shock that event would have produced. "Of course, this tragic outcome was created without any malice towards that family, or any intention to injure the animal." Earlier this month, a pet cat was taken to the vet because she was left home alone. The animal was bleeding from the mouth and paws when she was found. The vet believed the cat's owner had left her there and not noticed her until a few days later when she tried to call.Q: dynamically add bootstrap class I am trying to dynamically add my classes to the document by using a loop.
